To whom it may concern,

I am writing with regard to our relationship with P & H Heating and Cooling. I am small business owner who first was introduced to both Paul and Rich 2 years ago with a HVAC full install. We really appreciated their knowledge, service, and overall professional experience. Because of the first job, we now solely use them on over a dozen properties and will continue that relationship as we feel that the service and expertise far exceeds other professionals we have used in the past.

We hope this letter is a testament to their business practices.

If there are any questions please don't hesitate to reach out to me personally.

Sincerely,

A handwritten signature in blue ink, appearing to read "Daniel Machiorlatti", is written over a horizontal line.
